Development Director

Fast growing and innovative Paptic Ltd is seeking a person to complement the company team in the position of Development Director. In the position, you will be responsible for the product and process development strategy of Paptic and taking our excellent product through industrial level scale-up.

In the position, You will report to the CEO and will be a member of the management team. You will act as the head of the development function and team.

Experience

To succeed as the Development Director, extensive experience (>5 yrs) from specialty paper, non-woven or packaging industry is required, from varying roles in product and process development.

Qualifications

You need to have a higher education (MSc or PhD) in relevant field. You are a systematic and analytical decision maker and have proven experience of running and coordinating efficient product/process development projects. You are well connected to the specialty paper or non-woven industry.

About PAPTIC®

Paptic Ltd was founded in 2015 to replace oil based plastics with renewable, recyclable and renewable PAPTIC® material. Paptic is scaling up its production process to industrial scale, answering to the multi-billion € need of global brand owners for sustainable packaging materials. Paptic employs today 11 persons and is based in Espoo, Finland.

Apply now

In a small organization, the hierarchy is low and decision making is fast. Paptic aims to fill the position as soon as possible.

Please send your application and CV via email to us by 31 August 2017.
